

GOD'S HAND HOG PROJECT -UGANDA.

The program will comprise of Pigs rearing. The neediest pastors will stand a high chance to benefit from the project in that the activities being under taken provides a stable income generation. Pork is on a high demand on today's market since every village has a butcher and there are so many consumers such as in the urban centres and in supermarkets. These will boost up their family incomes as they sell some of the produce to cater for ministerial outreaches and other needs like Food, clothing, soap, hence a sustainable livelihood through such an income generating activity.

The Hog project has been proved as viable and achievable since it takes shorter time. Pigs take little land and produce three times a year.

One way that we are able to help local pastor's families develop sustainable and profitable lasting change is through our Hog farm program and training initiatives. This is an income generation program focused on helping pastors families start small businesses centred on breeding livestock which can provide them with a much needed income source. Through this Hog farm program, we aim to increase the level of income, employment opportunities, food security and nutrition.

Vision:

To enhance development through collaborative work.

Mission:

To reduce poverty by providing a wide range of training skills opportunities and approaches to excellently raise people's standards of living and to clothe, shelter, feed, heal, and live in solidarity with those who suffer under oppression, injustice, violence, hunger, and disease.

OBJECTIVES.

- Develop and strengthen local communities focusing on under privileged and pastors/ministers to become self-sufficient.
- Improve Peoples knowledge and skills through high level trainings in farming.
- To materially support people living with HIV/AIDS, Orphans refuges and other needy persons.
- To support abandoned and vulnerable elderly adults with food and medicine showing them the love and compassion of Jesus Christ.
- To provide support for pastors and their families as they face health problems that they are unable to handle on their own. These funds from piggery farm shall be used to help pastors during marriage weddings and funeral expenses.

PASTORS' MEDICAL FUNDS

We believe in helping pastors to start a process of radical transformation by empowering them with needed resources and training skills. We believe that we can produce a real lasting change in the lives of the pastors/Ministers.

Pastors in Uganda, Africa often minister without a salary, or they do not earn from their congregation to cover all of the basic needs for themselves and their families. Gods hand piggery project funds will be used also to cover the high costs of Medical care and medications when Pastors or their family members become ill. The Hospitals and medical systems in many local communities do not have the conditions to provide proper medical attention to patients, so people try to get medical care from a private facility. However, this is extremely expensive, making quality care out of reach for our pastors and their families who receive little or no support from their local churches. Quality health care is especially vital for pastors because so many of them come from backgrounds ***of drug addiction or alcoholism, illiterate and Muslim faith and become victims of persecution.***

CHALLENGES FOR GODS HAND HOG PROJECT:

- The funds needed to carry out the piggery project activities are not yet met or available.
- The increasing number of vulnerable ministers who need support, especially those who have been affected by the **Covid-19 global pandemic**.
- Transport problem. We seek to purchase a Brand new **Motorcycle** that will be used in the collecting of piggery good feeds from different centres.
- We shall need to drill **underground Water** for both piggery and farming because water is essential to basic living, food security, and health, water source in the piggery farm is like cool refreshment for thirsty pigs and is the basic for successful farming and food security at all times.

Supporters

A supporter is an organization or individual who acknowledges the importance of integral vision and objectives for Gods hand piggery project and their interested in the vision, mission and objectives; and would like to contribute financially or with their gifts to the piggery farm.

- a- A grant- for a piggery project, initiative.
